TRE LOCKING DIFFERENTIAL

TRE Locking Differential is designed to take you to the destinations other dream about. A simple flip of a switch will provide maximum traction when needed and maneuverability when it is not. Our system provides an affordable and reliable option for those wanting the most out of their off-roading adventures.

TRE4x4 provides a stable 5-year warranty with extensive distribution network and high-quality after-sales service to provide 100% after-sale protection.

Strongest 4320 chromoly alloy steel gears provide the most rugged quality and the most stable work efficiency.

Under the continuous research and development of TRE4x4, more available models for more popular models are constantly being updated.

The hardest hardness and increased thickness to make it provide the best working efficiency and stability when locked.

TRE DIFFERENTIAL COVER

The TRE Differential Cover is designed to give your gears maximum protection when the going gets tough and stylish looks when you are cruising.

Made from high-strength materials, nodular
Designed and produced for extreme off road
Increase lubricant oil capacity

AIR LOCKING DIFFERENTIAL

Heavy industry and agricultural alloy materials are used as raw materials, to guarantee the maximum ruggedness of parts.

Two-layer design provides more precise matching and higher work efficiency, reduces grinding and instability caused by moving parts.

Strongest materials forced 8620 steel for differential case, 4320 chromoly alloy steel for gears

Both available for most popular 4 wheel drive and 2 wheel drive vehicle model on market.

Unique oil return design keep your differential under lubrication protection away from unwanted wear.

Tough hardened and thickness increased clutch gear to provide best work efficiency and stability.

E-LOCKER

TRE E-Locker is an electronic differential. Is engaged by electric. The magnet in the E-Locker is powered, pushing the gear to lock both axles, sending 100% traction to both wheels.

- Electromagnetic Locking Mechanism
- Push Button Solution To Traction Problem
- Locks And Unlocks When Necessary
- Improved Strength and Durability
- A Must For All Traction/Off-Road Performance
- NO AIR LINES, NO COMPRESSOR - JUST TRACTION

CRAB LOCKER

- Well designed structure without wear parts, without air leak risk
- Lock the two axles as fast as you need the traction
- New designed, Road Tested, Proved
- Simple design with Easy Installation

TRE AIR SYSTEM

TRE PORTABLE COMPRESSOR KIT

The Portable compressor kit comes with a full wiring loom and mounting hardware for easy installation, whilst the portable kit includes a 6 metre air hose, battery clamps, inflation kit and a durable carry case.

We can easily meet any of your needs, whether they be for work or play.

- Equipped with TRE4x4 Airmax digital tire inflator
- Portable : Small enough to accommodate the narrowest space
- Contains PTFE to provide maximum trouble-free service life
- Multifunctional: Inflate tires ad perform other functions, such as camping or leisure equipment

TIRE INFLATOR HOSE

The AirMAX Tire Inflator Hose can handle the putput tolerances to get the job done and keep you on the road.

DIGITAL TIRE INFLATOR

The AirMAX Digital Tire inflator reads in 1% accuracy and 0.1 PSI Resolution , it also provides accurate readings from 0 to 200/250 PSI single digit pressures .

E-Z TIRE DEFLATOR

Using the AirMAX E-Z Tire Deflator and quickly deflate the tires to your preferred level , easily and accurately

TRE DIFF BREATHER KIT

It allows the diffs, transfer case and gearbox to breathe by relocating the breather to a higher point on vehicle and stopping the affect of water being sucked into diff housings and gearboxes.

TRE TIRE REPAIR KIT

TRE tire repair kit is ideal for repairing punctures in the tubeless tires of Motorcycles, ATVs, Bikes, Jeeps, Trucks & Cars. Includes everything you need to quickly repair punctured tires on sedans, bicycles, SUVs, tractors, and almost all tubeless tires.

TRE AIR COMPRESSOR

With your TRE Air Compressor, you can control your TRE Air Locker when you need more traction on the trail and so much more, Air up your tire up when you going from the trail to the road and fill you air atress when you go to the campsite.

- 12V and 24V compressor both available
- Every compressor passed air leak test before packing
- Running Air Locking Differential and Also inflating tyres
- Equipped lubricating oil return system

AIR-PRO PORTABLE COMPRESSOR

Flow rate: 150 LPM.

Maximum pressure: 150 psi.

Heavy duty 12V motor.

Max. Amperage: 50Amps, with inline fuse for compressor protection 1.8m power cord and 5m flexible fiber reinforced air hose.

Built-in on-off switch.

DC Motor: 540W, Cylinder diameter: 2x40mm.

8L ONBOARD COMPRESSOR

Supply air for tire, air locking differential, horn, suspension.

Power supply: DC 12V or 24V

Rated current: 23A

Cylinder diameter: 40mm

Max pressure: 300PSI

Max duty cycle: 30minutes

Air hose: 5m PU

Cord: 2m

Tank: 8L

Fill Rate(8L Tank): 0-120PSI 1Min. 40Sec. 80-120PSI 40Sec

NET WEIGHT	PRODUCT SIZE	PACKING SIZE
9.5kg/pc	545*165*365mm	560*180*380mm 1pc/ctn

SUSPENSIONI

TRE NITROGEN SHOCK ABSORBERS

• **Rotatable hose joint**

• **Double-layer hose**

• **Bumper**
Increase the protection when high performance off road

• **Piston Shaft**
Made by chromoly alloy steel with 22mm diameter

• **Compression adjustor**
Adjustable while installed on the vehicle.
Ultra wide range to suit varying loads and ride preferences

• **Nitrogen reservoir**
6061 grade aluminium remote oil canister and Heat Sink
Design allows for increased oil volume, resulting in lower oil temperatures

• **Spring Adjustment**
6061 grade aluminium adjustor allows adjustment of spring preload and ride height

• **High strength racing spring**

• **Rebound Adjustor**
Adjustable while installed on the vehicle,
Ultra wide range to suit varying loads and ride preferences

• **Joint bearing**

In up or off road driving activities, such as climbing hills or traveling on rough fire-fighting roads, TRE4x4 nitrogen shock absorber helps to minimize "rough" driving because the piston movement can pass the initial travel movement of impact, ground impact or force. Extremely small.

TRE COILOVER SHOCK

TRE4x4 Nitrogen shock absorber is designed to improve vehicle's performance of load carrying capacity and control characteristics in every adventure .

TRE TWIN TUBE SHOCK

With test of high and low temperatures, TRE4x4 conduct high-quality analysis and pay more attention to the roughness of the shock absorber.

STEERING STABILISERS

TRE steering stabilizer helps take the load off your steering components and keep your tires tracking straight and true. Oversized off-road tires have a tendency to seek out traction in any direction.

BUMP STOP

The TRE nitrogen bump stop providing a wide range of bottoming control. The durable construction and replaceable Delrin® strike pad are built to take the abuse while providing predictable and quiet operation. TRE bump stop available at 2", 3" and 4" model.

COIL SPRING

TRE offering wide range of international coil springs, such as raised height and heavy duty 4wd springs, with highest quality replacement coil springs insure your off road trip safe and enjoyable.

CONTRAL ARM

TRE Control Arm tend to prevent the car from shaking (or more precisely, not to lean to one side or the other). This is what the swing bar does: to prevent the body from tilting

EXTENDED SHACKLE

TRE Extended Shackle is made of 6082 T6 alloy to providing correct wheel positioning and larger operating clearances and further increase the ride height

PANHARD ROD

Panhard rod allows excessive sideways movement between the axle and the body at the ends of the spring travel. Unless desirable on smaller cars than larger ones.

BRAKE HOSES

TRE brake hoses are high-quality reinforced hoses that carry fluid to transmit force in hydraulic brake systems. Double crimp joints to provide longer service life and durability.

RECOVERY

GEAR

TRE RECOVERY BOARD-I

Key Features

- Nylon material for excellent flexity and durability
- Unique glass filled resin nylon teeth to reduce the wear from wheel spin
- Optimized design for contour ramps based on the data of 4x4 tire and TRE precision pattern data
- With heavy duty over-moulded Spare replaceable nodules
- TRE unique color and style
- TRE Pro-II recovery board come with a recovery leashes

TRE RECOVERY BOARD PRO-II

TRE RECOVERY BOARD PRO-II, specially designed with the unique effective function and beautiful appearance, is the most reliable friend of every driver got in stuck of the trip but no one's there could provide a hand. They would assit you in getting rid of the dilemma when lacking other traction in any toughest of conditions, like in sand, mud or even snow.

TRE RECOVERY BOARD PRO-II are strongly durable, wear resistant and high flexibility. With the unique composite construction EXOTRED, they could help the tyres restores the adhesion and provide the ultimate traction by maintaining a highly pressure on the tyres against the flex of being under vehicle weight on less than stable ground.

TRE RECOVERY KIT

TRE4X4 recovery kit is a comprehensive recovery kit containing everything required for a vehicle or winch based recovery.

Contents:

- 1 x Snatch Block, 9,000kg
- 1 x Snatch Strap, 8,000kg, 9m x 60mm
- 1 x Tree Trunk Protector, 12,000kg, 3m x 75mm
- 1 x Winch extension Strap, 5,000kg
- 2 x D-Shackles 4.75T each
- 1 x Winch Damper
- 1 x Gloves

TREE TRUNK PROTECTOR

Part number: TRG-SS-3

Reinforced eyes : Yes

Material: 100% polyester

Eye&seam protector sleeves: Yes

Min.breaking strength: 12000kg/26500LB

Length	Width
3m/10ft	75mm/2.95inch

SNATCH STRAP

Part number: TRG-SS-1

Material: 100% polyester

Eye&seam protector sleeves: Yes

Min.breaking strength: 8000kg/17500LB

Length	Width
9m/30ft	75mm/2.95inch

TRE RECOVERY ROPE

Made from UHMW-PE, more wear-resistant.

30% stretch, giving those using it a safer and gentler recovery.

Water, UV resistant.

Highest breaking strengths available, certified at our factory

WINCH EXTENSION STRAP

Part number: TRG-SS-2

Reinforced eyes: Yes

Material: 100% polyester

Eye&seam protector sleeves: Yes

Min.breaking strength: 5000kg/11000LB

Length	Width
20m/66ft	50mm/1.97inch

TRE SNATCH BLOCK

Double the capacity of the winch

Has a certain elongation

Two piece pulley design to accept line

Heavy duty self lubricating pulley wheel

Weight Capacity	winch wire rope
8 Ton/17,636 lbs	7/32 inch - 3/8 inch
9 Ton/20.000 lbs	1/4 inch - 1/2 inch

WINCH RECOVERY S-HOOK(9 TON)

TRE4X4 S Hook, The ideal choice for competitive winches Challenge. It has a higher rated strength, which can provide you with a greater safety margin when winches.

TRE DAMPER

One winching precaution is the fitting of a recovery damper prior to a load being applied. The recovery damper will absorb most of the energy in the cable or strap, significantly reducing the recoil .

- Pocket for accessory storage
- Heavy duty durable vinyl construction
- Silver reflective tape for night time visibility
- Rubber-coated center section guards against sliding
- Complies with 4WD competition damper requirements

TRE D-SHACKLE

TRE shackles belong to rated type S and help your strap attach to the vehicle. TRE has three different size shackles from 2T to 4.75T. They will work for most 4x4s and are designed for recovery only .

- Working Load Limit number forged into the steel
- Double-layer anti-rust and anti-corrosion process
- Black powder coating and red pin for easy identification
- Type "S" Shackle rated and tested to at least 6 x Working Load Limit (WLL)

TRE EXHAUST JACK

TRE Exhaust Jack is an essential recovery tool When your vehicle has unexpected emergencies.

- Complete set of tools
- Allows Lifting on All Terrains
- High tenacity 1500D Nylon most durable
- The bag will stay inflated for over an hour
- Safely lift your vehicle up out of a mud or bog in second

TRE SOFT SHACKLE

Soft Shackle is an essential part of any recovery kit. TRE Soft Shackle provide a lighter, more versatile, and safer option. It's rugged and strong .

- UV Resistant properties
- Water resistant & Floats
- Light weight and won't rattle
- Brightly colored RED so it can be seen in low light or in mud
- 32,000lbs breaking strength, suitable for vehicles up to 7700lbs

TRE FARM JACK

MAXIMUM RATED LOAD 4660lbs(2273kg)

AT 48" (121cm)

TESTED TO 7000lbs. (3275kg)

CLAMPING 750lbs. (340kg)

WINCHING 5000lbs. (2267KG)

TRE Folding Ground Anchor

The winch is almost useless if missing a suitable anchor point, therefore, a ground anchor, like the TRE portable ground anchor, is a worthwhile investment. Used by many emergency services all over the world, the Portable Ground Anchor weighs just 31 pounds. TRE Folding Ground Anchor can be easily carried around and can be easily folded and stored neatly.

WINCH

High performance series wound copper motor
6.0hp/4.5kw, 12v DC ribbed heat sink cools motor
faster.

Available with steel or synthetic
rope,with pulling capacities
from 12000lbs to 20000lbs

Wired remote : Easy to use, with 12' lead

Aluminum hawse fairlead

Wireless remote : Providing a wireless range of long

Smooth operating clutch with waterproof o-ring

Two-stage planetary gear train,efficient low
friction design uses permanent grease
lubrication

Extra thick legs support high rotational loads

Designed for off-road driving

Super wide tie bar enhances strength. Ensure the winch
delivery a quiet, fast and reliable pulling power

It's only a matter of time before you run into trouble when you go off the main roads and start explore. Make sure you have the right equipment to get you out of any predicament to enjoy the adventure and experience.
 TRE TED Winch come in all shapes and sizes, provide the best solution for every off-roader to get out of trouble.

Whether it be steep trails, muddy roads, or snowy streets, you know you can depend on your truck and your driving skills to get you through. When things get extra tough, you see it not as a setback but as an opportunity to demonstrate and improve on your off-roading skills. You know that you can get through any challenge. That's why a good truck winch can be so important. By keeping a setback from turning into a major problem, truck winches equip you to get out of nearly any sticky situation.

TRE TED winch is equipped with a winch motor breather, directly integrated into motor the housing. This special design is conceived from the demanding recoveries in every recovery conditions.
 Ultra High Molecular Weight Polyethylene Fiber is the material of the TRE EXTREME TOUGH Winch Rope. TRE winch rope is double braided construction come with 12 inner strand rope.

12000 LBS Synthetic rope

17000 LBS Synthetic rope

12000 LBS Steel cable

17000 LBS Steel cable

TRE HAND WINCH

Why choose TRE Hand winch?

Sometimes you are in a single player adventure situation, you may get stuck even installed the front winch. TRE hand winch will let you get off stuck easily even if you are alone. IT is more useful and much cheaper than installing a dedicated rear winch.

How to use?

TRE Hand Winch is relatively easy to install using a simple clamping system, and it is also one of the safest manual winches on the market with a winch shock absorber and the gloves provided. To use the winch, simply release the lock from the top and pass the winch cable through the system. Then secure the clip, connect the cable to the vehicle in need of repair, and install a luggage protector or similar on the other side. Then all you need to do is loosen the winch joystick until the vehicle is free to drive away.

This special winch can provide a maximum of 1600kg of traction, which is enough to handle most light four-wheel drive vehicles and 20 meters of cable, even if you have a considerable distance from the nearest forest line.

Feature:

- Maximum load limit: 1600kg(3500lbs)
- Pulling force: 5300lbs
- Cable size: 11mm x 20m
- Retractable handle
- Strong and lightweight aluminum alloy structure
- Weight (approx.): 23 kg
- Handle length, 31 inches closed diameter, 47 inches extension

LIGHTNING

TRE FLASH DRIVING LIGHT

3W OSRAM LED
 Input: 10-30 DC
 Power: 48W
 Current Draw: 4.16@12V, 2.12A@24V
 Output-Effective: 4320 Lumens
 Lux @M (Single Light): 1 lux @ 495m
 Colour Temp: 6000K
 Warranty: 2 years
 IP68 dust and wterproof rating

TRE LIGHT BAR

3W OSRAM LED
 Input: 10-30 DC
 Power: 120W
 Current Draw: 8.27@12V, 4.09A@24V
 Output-Effective: 10800 Lumens

Lux @M (Single Light): 1 lux @ 636m
 Colour Temp: 6000K
 Warranty: 2 years
 IP68 dust and wterproof rating

TRE SUPER SLIM FLASH LED LIGHT BAR

Input: 10-30 DC
 Power: 105W
 Current Draw: 7.95A@12V, 3.89A@24V
 Output-Effective: 5975 Lumens
 Lux @M (Single Light): 1 lux @ 638m
 Colour Temp: 5700K

Weight: 1.8 kg
 Dimensions: 522mm*40mm*55mm
 Connector: DT
 Warranty: 2 years
 IP68 dust and wterproof rating

DRIVING LIGHT COVER

Manufactured from molded polycarbonate with scratch & UV resistance, protecting the lens and bezel of the light.

LIGHT BAR COVER

Molded polycarbonate with scratch & UV resistance to provide best protecting for the 22" Light Bar.

1 TO 1 WIRE / 1 TO 2 WIRE

Multiple output terminals to choose from, support your personalized settings.

STORAGE

SOLUTION

TRE SPACE CASE

The TRE Space Case is the ideal heavy-duty storage case for camping gear and tools.

FEATURES :

- Tough, rugged, and durable LDPE shell, built for any adventure!
- Preinstalled with gas struts to keep your lid open! (Except 52L)
- Steel Lockable Latches!
- Dust/Waterproof Gasket Seal!
- Stackable with like-sized TRE cases!
- Rope Handles with comfortable rubber grips to easily transport!
- Channels for use with ratchet straps to easily secure on your rig!
- Built in Drain plug for easy decompression or draining!
- Built in Bottle Opener so you are never thirsty!

TRE ROLLER KITCHEN BOX

DRAWER SYSTEM

TRE drawer system is the newest product of TRE. We spent a lot of effort in the design, and the problems found in each test were greatly improved. For a better user experience, we conducted many tests and finally produced the TRE drawer system. The designed products have been changed in the general drawer system, and new improvements have been made, which are more flexible and more convenient. In addition, they are also customized according to the model and have large space. The TRE Drawer system is designed not only for off-road vehicles, but also designed for other vehicles.

APPLICATION FOR SUV

BENZ G	Mitsubishi V33 Pajero	Nissan Y60	Toyota LC100A	Toyota LC120

TRE PICKUP TOOL BOX

With 3-way opening design, the TRE Ute Box can be opened and accessed from each side of the box as well as the front. The TRE Box features locks located on each side, providing extra convenience and security for your belongings. TRE Ute Boxes offer a smarter and stylish storage solution for your dual or space cab vehicle.

Available for:

Ford Ranger PXI/PXII 2011+

Holden Colorado 2012+

Isuzu D-Max 2012+

Mazda BT-50 2011+

Mitsubishi Triton MN and MQ

Nissan Navara D40 and NP300

Toyota Hilux 2004-2014 and 2015+

TECHNICAL SPECIFICATIONS

Capacity: 200L (Extra Large)

Weight: 21KG

Size (closed): W575 x L1415 x H535

Installation Time: Approx. 30 mins.

Feature:

- Fits most full-size modern trucks.
- Strong but light-weight marine-grade aluminum structure.
- The thickness is twice that of most other pickup truck toolboxes on the market.
- Stainless steel hardware
- Weather-resistant design
- Drill-free installation kit.
- The included weather strip for installation helps protect the truck from damage.

TRE WHEEL-WELL BOX CASE

TRE Wheel-well Tool Box is Easily clean, transport and pick and place items on the truck bed. The wheel well box is made of heavy-duty Abs plastic and is locked and sealed. There is a hole in the bracket for installing the lock that fixes the lock to the bed, and the bottom of the box can be pulled down to rotate the box outward for easy access.

TECHNICAL SPECIFICATIONS

100% brand New

Quantity Sold: One Set

Location:Rear Driver Side

Color/Finish:Black/

Material:ABS

Length:30.71"

Width:9.06"

Height:15.35"

Packaging Type:Box

No instruction included

Feature:

- Lightweight
- Weatherproof
- Spacious
- Includes slider shelf
- Easy installation
- Lockable

ALUMINUM TRUCK TOOL BOX

TRE Aluminum truck tool boxes offer you confidence on the job and on your overland adventure, offering you dependable security for your tools, cargo and more. Extra-thick aluminum construction and stainless steel lock handles. They are available in several different dimensions, styles and finishes to perfectly suit each unique pickup truck bed.

Feature:

- Durability
- Save space
- Can prevent water from getting inside
- Lockable to ensure all items are safe and reliable
- Multipurpose

TECHNICAL SPECIFICATIONS

Color: silver

Material: Aluminum

Location: Truck chassis

Tread: Diamond plate

Include key: yes

Dimensions: 48.42" (length) x 15" (width) x 15" (height)

GULL WING CROSSOVER TOOL BOXES

With TRE Gull Wing Crossover Tool Boxes, you can easily open up the truck tool box from the side. You don't need to open the tailgate and climb up to reach the door. You don't need to have a usually long reach, either. That makes gull wing crossover tool boxes a great choice for convenience. If you need to store tools somewhere where you can easily grab them in a hurry, the gull wing style of crossover tool chest is a great option.

TRE 5TH WHEEL PARTNER BOX

The TRE 5th Wheel Partner Box adds extra storage for RV enthusiasts, utilizing the dead space between the 5th wheel hitch receiver area and the tailgate. This heavy-duty box is positioned in the rear of the truck bed. It's a handy place to keep your jumper cables, extra motor oil, chock blocks, tools and golf clubs. This all-aluminum truck tool box keeps your valuables secure and dry. 5th Wheel Partner tool boxes are available in sizes to fit all pickup trucks and come with a lifetime warranty. Also accept custom.

HARD LID

- Each lid is supplied with a unique set of keys.
- When the Load-Lid is opened water runs off the back of your lid and onto the ground - not into your tray.
- Full-Length Rain Channel to ensure your gear stays dry.
- Raised Profile would avoid the intrusions below the top edge of your wellside, also adds a staunch appearance, improves rigidity and reduces water pooling.
- Very Easy to Remove, and Refit!
- Enough space you'll need to carry objects such as a fridge, washing machine or quad bike in your wellside.
- Strong and tough materials could bear the heavy items on it.

ROLLER LID

- Electric Roller Lid & Manual Roller Lid
- Flat and solid looking
- Low profile design
- Weather proof
- Opens electrically with remote and stops in any position
- Increased security and remote lockable
- Able to transport tall goods
- Opens and closes when crossbar roof racks are installed
- Can open the tailgate while hard lid remains closed

UTE LINER

- Strong and durable materials
- Anti-slip floor
- High impact resistance
- Pieces design for simple installation
- Vehicle tie-down points retained
- Contoured design maximizes tub space
- Impact resistant and UV stable Polyethylene material
- Vacuum formed to meet the internal shape of the vehicle tub
- Texture finish to enhance the image of your vehicle

CANOPY

Customized interiors and provide the best choice for you

Safe and reliable T-lock locking

Fully sealed welding, stable and reliable

Weatherproof Seals

Shape perfectly match multiple vehicle models

FIBREGLASS CANOPY

ALUMINUM CANOPY

ALUMINUM CANOPY

TRE 4X4 offer a range of Aluminium ute canopies with extremely durable aluminium and seam welded for added strength to accommodate various vehicle styles and sizes: Dual cab, extra cab, single cab and part-tray canopy. Boast a stainless steel T-lock to ensure you can rest easy knowing your possessions are safe and avoid the hassle of having to replace stolen tools or other personal belongings.

We also offer a wide selection of optional extras to customize your canopy with such extras as ladder racks, extra internal support, windows and size customisations available to get the greatest benefit from it. Depending on whether you're needing one of our canopies for your profession or personal use, we can tailor our fantastic products to align with your individual needs and ensure you receive the most value for money.

FIBREGLASS CANOPY

TRE4x4 canopies with world class manufacturing ,Maximize the potential of your dual cab by installing a quality canopy to safely store your goods in the rear tray while protecting them from the elements. With technologies for fiberglass double shell canopies. Incredibly lightweight and strong to withstand the kinds harsh of wild conditions and light enough that it won't add any other heavy "pressure" to your vehicle.

TRE SPARE TIRE TRASH BAG

- Carries up to 50lbs of weight
- Made from high quality 900 denier canvas
- Water resistant interior coating for bad weather
- Drainage holes at bottom for unexpected leaks
- Fits a standard 30 gallon trash bag for ease of dumping

Weight	1.0kg
Dimension	24 x 17 x 8inch

TRE GASOLINE PACK

TRE gasoline pack is an ultra-durable, compact and modular provide extra fuel to your vehicle. After optimizing, the plastics specification can against color fade and mechanical degradation. Common mounting locations are on top case luggage racks, side case racks or attached to luggage systems themselves and you can increase your capacity .

- Flexible customization is permitted between multiple packs
- Rotationally molded for unrivaled strength and colorfast
- TRE Gasoline Pack designed to secure via its central port
- Extra thread with a reliable sealing gasket
- 1 GAL /2GAL/ 3GAL/ 5GAL/ 8GAL available

TRE PORTAL AXLE

TRE BOLT-ON PORTAL

Description:

Special axle bolts designed specifically for the popular 4WD vehicles, TRE4X4 Portal not only improves the safety of the drilling rig, but also very strong and reliable in most situations under adverse conditions. TRE4X4 bolt-on portal axles is designed to keep people alive in battle, and is sufficient to cope with the most dangerous trails and even open up new ones.

Feature:

Portal axles (or portal gear lifts) are an off-road vehicle suspension and drive technology where the axle tube or the half-shaft is off-set from – usually above – the center of the wheel hub and where driving power is transferred to each wheel via a simple gearbox, built onto each hub.

lift the car 20cm/30cm

The whole axle, include the bolt-on portals, lockers, brake disk and brake parts.

Ring and Pinion ratio: 6:35

Portal Axle Ratio: 16:33

Suitable for all 4x4 vehicles

Width:1590mm

Warranty:2 years

Keep dust from getting into vehicle's original filter , maintaining engine performance

A cleaner airflow and a lower temperature compared to the vehicle's original air intake

Allow to operate under normal circumstances avoding total breakage by water intake

TRE SNORKEL

PORTABLE SOLAR KIT

TRE4x4 Portable Solar kit offer the most versatile and convenient battery charging options for those offroader who often haunts the worst wilderness . The Anderson-style battery charging connectors allow you to quickly interchange the charging accessory to best suite your needs – from maintaining your RV or trailer battery while on the road to trickle charging your car, ATV or boat battery. Adjustable folding legs to maximize solar exposure and for compact easy storage. Multiple charging connectivity options.

SOLAR REGULATOR

Pulse Width Modulation (PWM) Solar Regulator is the most effective means to achieve constant voltage battery charging by switching the solar system controller's power devices. When in PWM regulation, the current from the solar array tapers according to the battery's condition and recharging needs.

- Mutple Electric Protection
- High efficiency series charging mode lextends battery life
- Dual mosfet reverse current protection, low heat production
- Comes with a display that can clearly indicate the status and data

SOLAR INVERTER

MARS-SOLAR Solar inverter is the most important elements of the solar electric power system. It converts the variable direct current (DC) output of a photovoltaic (PV) solar panel into alternating 240V current (AC). This AC electricity then can be fed into your home or car to operate.

- External insurance sheet
- Multiple automatic protection
- Front and rear isolation design
- Multiple output receptacles supported
- Isolated input/output design with 360°protections

SOLAR BLANKET

Converting virtually unlimited supply of solar power to much needed battery juice for your mobile devices such as an iPhone, iPad and many, many more USB portable devices. Monocrystalline silicon design, high solar conversion rate, folding design, easy to carry and use.

- No additional battery needed for charging external devices, 100% green energy with zero carbon footprint
- Built-in dual USB ports
- Highest-efficiency mono-crystalline panels fold up into a compact, portable and light weight pack

SOLAR PANEL

The MARS-SOLAR Monocrystalline Folding Solar Panel is an eco-friendly backup power source that's ideal for outdoor sites and activities. It can be folded neatly in seconds, and is conveniently portable with its sturdy carry handle and lightweight aluminium frame. With MARS-SOLAR Monocrystalline portable solar panel, access solar power anywhere!

- Monocrystalline Solar Cells, High Energy Conversion
- Eco-Friendly Backup Power Source
- Easy to carry, easy to use, no construction needed, comes ready to use.

CAMPING

A white Isuzu SUV is parked on a grassy field with a large, tan rooftop tent mounted on its roof. The tent is supported by a silver ladder. In the background, there is a turquoise lake reflecting the surrounding rugged, rocky mountains under a blue sky with scattered clouds. The overall scene is a scenic mountain landscape.

ACCESSORIES

ROOF TENT

TRE roof tent is an accessory when you go on travelling outside. It allows the users to sleep in relative safety and comfort above the vehicle, and leaves the internal load-space free. ... they provide excellent protection from wildlife and the elements!

You can escape the city life at any time , go out and enjoy the fun of the nature. Enjoy more time relaxing with your friends and family. TRE roof tent gives you the freedom to camp anywhere you can park.
