

ALPHA BUMPER

SPECIFICATION

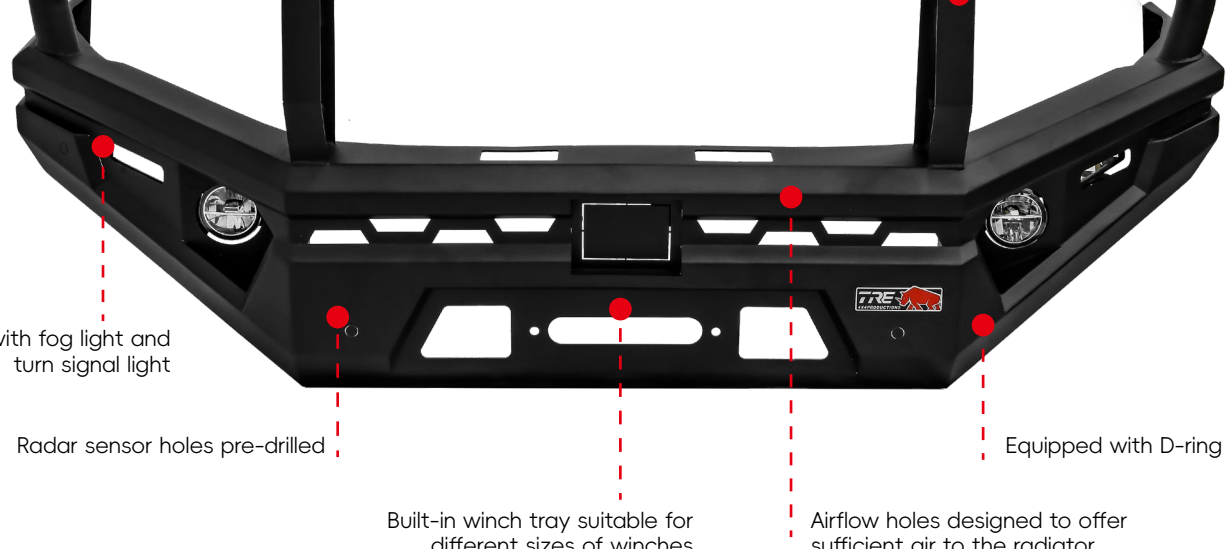

Our bumper can be equipped with any running lights or light poles to meet your specific needs.

The airbag can still function normally after installation, equipped with fog lights and turn signals, and the winch tray is suitable for different sizes of winches.

Any driving light or light bar can be mounted on the press-formed top bar

Production process: Acid washing, phosphating, electrophoresis, and spray coating. Ensuring 15 years of corrosion-free durability

Equipped with fog light and turn signal light

Radar sensor holes pre-drilled

Built-in winch tray suitable for different sizes of winches

Airflow holes designed to offer sufficient air to the radiator

Equipped with D-ring mount brackets
